Curvet and Rancher Buildings

*Good Iron. GREAT Experience!*<sup>™</sup>

Build for the next generation, build strong... Build Behlen.

**Curvet™**

## Outstanding Quality and Value

The Behlen Curvet™ is perfect for farmers, ranchers, or anyone looking for an economical approach to store equipment in a building with superior strength and the ability to stand strong against the elements. The building's rugged S-Span™ design is clean, open, and free of interior columns. The Curvet™ has proven itself as a vital building across the country.

## Features

- Made from durable 18 or 20 gauge steel, providing outstanding strength
- Grain storage Curvets allow grain to be filled to 10' high against side walls and 9' high against endwalls, without rods or braces
- Loading hatches can be located along the top of the building to make filling a simple operation
- Can be easily expanded for additional storage
- Standard bottom rolling slide doors open with ease and operate on large diameter wheels
- All slide doors have 3" roll formed panels

## Available Door Sizes

- 16'-10" wide X 14' tall
- 23'-8" wide X 14' tall
- Larger sizes available\*
- \*16' tall doors are available on 60' and 68' wide Curvets only
- Larger 44' wide X 14' tall and 30'-6" wide X 16' tall slide doors are available for the 68' Curvet only

DIMENSIONS		
Width	Height	Height 3' from Sidewall Base
51'	17'-5"	4'-11"
60'	20'-0"	4'-11"
68'	23'-0"	5'-2"

Mastic between all panel joints and foam sealer at the base provide a protective barrier against moisture and wind.

All panels are fastened together with large 3/8" dia. bolts that will not work loose with heat, cold or vibration. Panel connections,

footings, and sealers are designed for tight fit and long life. All panels are fastened together with plated 3/8" diameter bolts.

Constructed from super duty 20 gauge steel, the Behlen Rancher is strong enough to withstand most anything that the elements or a cow herd can dish out. The Rancher is perfect for those looking to provide an inexpensive method of cover and storage.

## Features

- Galvanized 20 gauge steel
- Low cost protection for your valuable hay, livestock, or machinery
- A livestock shelter that can really take abuse
- Maintenance-free for a lifetime of service
- No place for birds to roost
- Bolts together for easy assembly
- Goes up fast

## Dimensions

- 35'-8" x 62'-5" with two bays at 31' or three bays at 20'
- Greater lengths are available

## Special Header Design

- 13'-10" Clear
- No place for birds to roost

## S-Span™

### Bolts Together for Easy Assembly

Designed with clear-span capability and space efficiency, Behlen S-Span buildings are built with heavy gauge steel to withstand more weather extremes and general abuse than conventional construction. Protect your valuable assets with a professional grade building that combines rugged good looks with affordable pricing.

## Experience

The Behlen name is renowned in Rural America for providing quality steel building systems, made by craftsmen, with a heritage that dates back more than 75 years. We are “The GOOD IRON People” and it shows in every building – every time. Behlen buildings have met the needs of farmers, ranchers, grain storage facilities, and ag businesses by standing up to the elements and serving as an essential part of their operations from one generation to the next.

## Value

A Behlen building maintains its value, integrity and strength. All steel construction provides greater stability than a wood frame structure. Behlen buildings are built to last.

## Behlen Builders

Authorized Behlen builders must be experienced and held in high regard by the construction industry to meet our qualifications. They are the best of the best and can help you get the greatest return for your investment.
